

Voice Training - Basics

Your voice is a most important tool to convey competence, sympathy and credibility in each and every communication situation. There is a potential that you can train!

Target Group

Employees who need to speak with clarity and competence.

Course Goals

This training will enhance your voice awareness and improve your ability to express your competence through your voice. You will get your message across with more confidence, conviction and ease. You train to develop clear speech and to transfer your voice so that you can be accurately heard and understood.

Content

- Your voice as a means in meetings, one-to-one talks, on the phone or in presentations
- Practical inputs: relations of body posture, breathing technique and resonance
- Expressing competence through refined enunciation, clarity and intonation
- „In the right key, you can say anything“: The voice as a reflection of your personality
